

model **9084**
Cleansing Stick

FEATURES & BENEFITS

EASE OF INSTALLATION

Simple to install and easy to use, cartridges are non-chemical, non-powered, environmentally friendly and cost effective. Manufactured for stored water systems, the Cleansing Stick cartridges are simply immersed in the tank and the process protection starts immediately.

PROTECTION

A combination of active ceramic and noble metal matrix that causes oxidation of the water and ionization, a powerful disinfectant process that disrupts the replication of waterborne pathogenic bacteria.

PREVENTION

The Cleansing Stick balances the pH of the water preventing the build-up of scale, biofilm and rust.

OPTIONS

For more information, visit www.hawasco.com or call (888) 640-4297.

SPECIFICATIONS

Model 9084 is an immersible Cleansing Stick that gives continual protection against pathogenic bacteria for water storage systems. It balances the PH of the water preventing the build-up of bio-film, scale and corrosion. This non-chemical disinfecting module is designed to be immersed in a water tank to provide constant protection from bio-film and hazardous levels of pathogenic bacteria, including Legionella. The Cleansing Stick will treat up to 528 gallons (2000 liters).

APPLICATIONS

For use with Haws Integrated products such as air-charged systems, and overhead tank showers.
