SOTOXA™ ORAL FLUID MOBILE TEST SYSTEM

TESTING WHERE IT IS NEEDED

Substance abuse in the workplace can result in low productivity, accidents and injuries. An effective, simple and fast drug screening solution is key for both deterrence and identifying if drugs are being used.

INCREASE SAFETY

Keeping our work environments safe is a key priority. The SoToxa handheld technology with immediate actionable results can improve safety and help individuals and employers live their best lives.

PORTABLE, HANDHELD AND CONVENIENT

The handheld SoToxa analyzer provides the optimal combination of speed, ease of use, reliability and accuracy. The analyzer has been designed and developed to meet the high performance demands of workplace settings, which can often be in remote environments, empowering the users to take action with immediate test results.

TESTING WHERE YOU NEED IT

The SoToxa Oral Fluid Mobile Test System is the ideal instrument for drug testing in those often difficult environments. Samples can be collected anywhere without the need for gender-specific facilities. It can detect up to 6 drug classes within 5 minutes from a single oral fluid collection sample. Weighing in at under 700 g and fitting comfortably in your hand, it is a truly portable analyzer. The test system is designed to operate in a wide range of environments. The backlit, 3.2 inch full colour screen provides excellent visibility in daylight and at night.
