## YOU CAN LOSE YOUR PRECIOUS EYESIGHT IN THE BLINK OF AN EYE.

### **Less than a second –**

***that's all it takes.*** Approximately 200 workers in Canada sustain a work-related eye injury each day.

Workers fail to wear proper eye protection for a number of reasons; many believe that they are unnecessary, uncomfortable or too costly. At Levitt-Safety, we're on a mission to change that.

We offer industry-leading brands in styles that look and feel good, with customized prescription lenses. We're proud to offer competitive rates that can make a real difference in the safety program at your workplace.

# OUR SIMPLE 5-STEP PROCESS

- 1.** An authorization form is given to an employee from the company.
- 2.** The employee visits one of Levitt-Safety's authorized dispensers and provides the form and their current prescription.
- 3.** The dispenser consults with the employee on the best frame and style of glasses needed for their job.
- 4.** The order is sent to Levitt-Safety where it will be manufactured in our optical lab. The new set of glasses will be sent back to the dispenser in 5-10 business days.
- 5.** The employee receives the new eyewear and has them professionally fitted to ensure proper vision and comfort.

## CSA Z94.3 SELECTION, USE AND CARE OF PROTECTIVE EYEWEAR

### IDENTIFYING CSA-APPROVED SAFETY GLASSES.

**LENSES:** The Canadian Standards Association (CSA) states that safety glasses must have plastic or polycarbonate lenses. They are stronger than regular lenses, impact-resistant and come in prescription and non-prescription forms.

**MARKINGS ON SAFETY GLASSES:** The supplier logo is marked (or etched) on all approved safety lenses. The frames (front and temple), side shields and other parts of the glasses, goggles or helmets are marked with the CSA Z94.3 Standard.

**FRAMES:** Safety frames are stronger than streetwear frames and are often heat-resistant. They are also designed to prevent lenses from being pushed into the eyes.

If eye protection is required, establish a complete eye safety protection program including selection, fitting, training, maintenance and inspection.

**Call Levitt-Safety today for more information at 888.453.8488 or contact us at [csr@levitt-safety.com](mailto:csr@levitt-safety.com).**

# STANDARD COLLECTION

The Standard Collection provides an economic choice in eyewear styles while keeping safety top of mind.

**PLEASE NOTE COLOUR AVAILABILITY MAY VARY BY SIZE.**

## LS2704

- **Sizes:** 48.19.140; 51.19.140
- **Colours:** MATTE BROWN, MATTE GREY BLUE, MATTE GUN
- Meets CSA Z94.3 Standards

## LS2705

- **Sizes:** 50.19.145; 52.19.145
- **Colours:** MATTE BROWN, MATTE GREY BLUE, MATTE GUN
- Meets CSA Z94.3 Standards

## LS2706

- **Sizes:** 48.21.140; 50.21.140
- **Colours:** MATTE BROWN, MATTE GREY BLUE, MATTE GUN
- Meets CSA Z94.3 Standards

## LS2707

- **Sizes:** 54.19.145; 53.19.145
- **Colours:** MATTE BROWN, MATTE GREY BLUE, MATTE GUN
- Meets CSA Z94.3 Standards

**LS2708**

- **Sizes:** 50.21.145; 52.21.145
- **Colours:** MATTE BROWN, MATTE GREY BLUE, MATTE GUN
- Meets CSA Z94.3 Standards

**LS2709**

- **Sizes:** 54.17.140; 56.17.140
- **Colours:** MATTE BROWN, MATTE GREY BLUE, MATTE GUN
- Meets CSA Z94.3 Standards

**NONCONDUCTIVE****LS6020**

- **Sizes:** 55.19.145
- **Colours:** BLUE
- **Features:** Integrated side shield protection, wraparound style
- Meets CSA Z94.3

**NONCONDUCTIVE****LS6030**

- **Sizes:** 55.19.145
- **Colours:** ORANGE
- **Features:** Integrated side shield protection, wraparound style
- Meets CSA Z94.3

**5001P**

- Sizes: 54.17.145
- Colours: GREY, BROWN
- Features: Permanent side shield protection
- Meets CSA Z94.3 and ANSI Z87.1 Standards

**5002P**

- Sizes: 51.16.135
- Colours: BROWN, BLUE
- Features: Permanent side shield protection
- Meets CSA Z94.3 and ANSI Z87.1 Standards

**5003**

- Sizes: 62.13.134
- Colours: BLK/RED, CRY/BLUE
- Features: Integrated side shield protection
- Meets CSA Z94.3 and ANSI Z87.1 Standards

**5004**

- Sizes: 60.13.134
- Colours: GREY
- Features: Integrated side shield protection
- Meets CSA Z94.3 and ANSI Z87.1 Standards

**5005**

- Sizes: 56.14.143
- Colours: BLACK
- Features: Integrated side shield protection
- Meets CSA Z94.3 and ANSI Z87.1 Standards

**6005**

- Sizes: 62.16.120
- Colours: BLACK
- Features: Integrated side shield protection
- Meets CSA Z94.3 and ANSI Z87.1 Standards

**NONCONDUCTIVE****6006**

- Sizes: 60.17.128
- Colours: BLACK, BLUE, GREY
- Features: Integrated side shield protection, cushion and strap included
- Meets CSA Z94.3 and ANSI Z87.1 Standards

**NONCONDUCTIVE****6007**

- Sizes: 64.17.116
- Colours: BLACK, GREY
- Features: Integrated side shield protection, cushion and strap included
- Meets CSA Z94.3 and ANSI Z87.1 Standards

**NONCONDUCTIVE****6008**

- Sizes: 59.19.114
- Colours: BLUE, GREY, PINK
- Features: Integrated side shield protection, dust bar included
- Meets CSA Z94.3 and ANSI Z87.1 Standards

## NONCONDUCTIVE

**6009**

- **Sizes:** 60.16.125
- **Colours:** BLACK, GREY, CRYSTAL
- **Features:** Integrated side shield protection, cushion and strap included
- Meets CSA Z94.3 and ANSI Z87.1 Standards

**6011**

- **Sizes:** 55.21.116
- **Colours:** CAMO, GREY
- **Features:** Integrated side shield protection
- Meets CSA Z94.3 and ANSI Z87.1 Standards

## NONCONDUCTIVE

**6008FS**

- **Sizes:** 59.19.14
- **Colours:** BLACK
- **Features:** Integrated side shield protection, full seal rubber cushion
- Meets CSA Z94.3 and ANSI Z87.1 Standards

**7002P**

- **Sizes:** 54.15.145 | 57.15.150
- **Colours:** BLACK, BROWN
- **Features:** Permanent side shield protection
- Meets CSA Z94.3 and ANSI Z87.1 Standards

## Tips for selecting safety eyewear:

- **Consider your workplace hazards.** Exposure to vapours, chemicals, liquid splashes or debris can all affect the level of protection needed.
- **Prioritize comfort.** You'll be wearing your glasses for extended periods of time. Make sure they feel good on your face and don't interfere with your work.

# Premier Collection

The Premier Collection offers the safety and practicality of our Standard Collection, but with extended style and material choices.

**PLEASE NOTE COLOUR AVAILABILITY MAY VARY BY SIZE.**

## LS3704

- Sizes: 53.15.140 | 55.18.145
- Colours: MATTE BROWN
- Meets CSA Z94.3 Standards

## LS3705

- Sizes: 56.17.145 | 58.17.145
- Colours: MATTE GREY BLUE
- Meets CSA Z94.3 Standards

## LS3706

- Sizes: 53.17.140 | 55.17.145
- Colours: MATTE GUN
- Meets CSA Z94.3 Standards

## LS3707

- Sizes: 51.18.135
- Colours: SATIN LIGHT BLUE
- Meets CSA Z94.3 Standards

**LS3708**

- Sizes: 51.20.145
- Colours: ANTIQUE SILVER MATTE
- Meets CSA Z94.3 Standards

**LS3709**

- Sizes: 56.15.145 | 58.15.140 | 54.15.140
- Colours: GUN METAL | DEMI AMBER
- Meets CSA Z94.3 Standards

**LS3711**

- Sizes: 56.15.140 | 58.15.145
- Colours: KCH KNIFE CHROME
- Meets CSA Z94.3

**LS3712**

- Sizes: 48.18.140
- Colours: GREY
- Meets CSA Z94.3 Standards

**NONCONDUCTIVE****6002**

- Sizes: 53.18.125
- Colours: CRYSTAL, GREY
- Features: Integrated side shield protection
- Meets CSA Z94.3 and ANSI Z87.1 Standards

**7000P**

- **Sizes:** 55.16.140 | 57.16.145
- **Colours:** BLACK, BROWN
- **Features:** Permanent side shield protection
- Meets CSA Z94.3 and ANSI Z87.1 Standards

**7001P**

- **Sizes:** 52.15.145 | 55.15.150
- **Colours:** BLACK, DEMI AMBER
- **Features:** Permanent side shield protection
- Meets CSA Z94.3 and ANSI Z87.1 Standards

**7015P**

- **Sizes:** 56.15.145 | 59.16.145
- **Colours:** BLACK, GREY
- **Features:** Permanent side shield protection
- Meets CSA Z94.3 and ANSI Z87.1 Standards

**7400P**

- **Sizes:** 56.16.140 | 59.16.145
- **Colours:** BROWN, GREY
- **Features:** Permanent side shield protection
- Meets CSA Z94.3 and ANSI Z87.1 Standards

**7402P**

- **Sizes:** 54.18.140 | 57.18.145
- **Colours:** BLUE, BROWN
- **Features:** Permanent side shield protection
- Meets CSA Z94.3 and ANSI Z87.1 Standards

## NONCONDUCTIVE

**OG220**

- Sizes: 55.15.130 | 58.15.135
- Colours: BLACK, CHESTNUT, PINK, PURPLE, GREEN, CLEAR
- Features: Integrated side shield protection
- Meets CSA Z94.3 and ANSI Z87.1 Standards

## NONCONDUCTIVE

**OG210S**

- Sizes: 57.16.120
- Colours: BLACK, BROWN
- Features: Integrated side shield protection
- Meets CSA Z94.3 and ANSI Z87.1 Standards

## NONCONDUCTIVE

**OG225S**

- Sizes: 57.16.135
- Colours: GREEN, SILVER, YELLOW, OTANGE
- Features: Integrated side shield protection
- Meets CSA Z94.3 and ANSI Z87.1 Standards

**Canadian workers**

sustain eye injuries on the job each day, resulting in lost time and/or temporary or permanent vision loss.

Protective eyewear used in Canada must have the CSA mark on it to show that it meets Canadian Standards Association (CSA) standards. Choose protective eyewear with polycarbonate lenses; they are impact and scratch resistant.

### EAOS1101SGAFKT

- Long-lasting anti-fog performance in wet and steamy conditions
- Bonded coating helps maintain clearer sight longer
- Effective for at least 25 washings
- Withstands bleach soak and alcohol wipe disinfection
- Blocks 99.9% of UVA, UVB, and UVC rays

### EAOSF201AFCA

- Secure fit stays in place during movement
- Scotchgard™ Anti-Fog coating
- Blocks 99.9% of UVA, UVB, and UVC rays
- Available with Anti-Fog Plus or Scotchgard™ Anti-Fog coating
- Meets ANSI/ISEA Z87.1-2020 impact-rated protection

### EAOSF401AFCA

- 3M™ Pressure Diffusion Technology adjusts to individual head sizes
- Padded temple touch points and soft, adjustable nose pads
- Secure fit helps prevent slippage
- Blocks 99.9% of UVA, UVB, and UVC rays

### EP250060000

- Lightweight, rimless design provides all day user comfort
- Flexible, rubber tip temples
- Molded nose bridge design
- 10 Base curve lens
- Meets ANSI Z87.1+
- Meets CSA Z94.3

### ERBONESSPCSP

- Ultra wrap-around frame for perfect protection
- Non-slip bridge
- Bi-material temples for better comfort
- PLATINUM coating : anti-scratch & anti-fog

# Features to look for in your prescription safety glasses:

## Digital Lenses

Your safety prescription eyewear should have the same high-quality lenses as your everyday glasses. Levitt-Safety offers custom digital lenses for the frames you need to wear at work, providing you with the best possible safety and vision.

## Custom Made

Digital lenses provide true, expanded vision, making them much easier to use in comparison to other progressive lens designs. If you are new to progressive lenses, you will be amazed at how easy these custom-made lenses are to wear. Just hold your head naturally and let your eyes do the seeing. No more chin or nose pointing to bring objects into focus.

## Wider Viewing Areas and Clearer Sight

Digital lenses provide up to 35 per cent wider vision in comparison to traditional lenses.

## Patented Technology

Digital lenses are the most advanced type of progressive lenses available today because the entire lens prescription is three-dimensionally fused on the back surface of the lens. They are individually fabricated to your exact prescription and do not have pre-molded optics on the front surface like conventional progressives.

See more of the world in greater clarity with a progressive lens, custom made for your exact visual needs.

## GOGGLE AND FULL FACE RESPIRATOR INSERTS

Accessibility to safety prescription eyewear over a multitude of varying tasks and duties is of paramount

importance. Our complete offering is complemented by our ability to add safety prescription inserts into many of our most popular safety goggles and full face respirators. We are eager to provide you with the proper prescription eyewear solution no matter the application.

## IR Lenses

For jobs where heat, glare, and radiant energy are part of the work environment, IR lenses provide added eye protection beyond standard safety eyewear. Designed to help filter infrared light, these lenses are well suited for applications such as welding, brazing, cutting, and other high-heat industrial tasks. They help improve comfort, reduce eye strain, and support safer vision in demanding work conditions, while allowing workers to perform their tasks with greater confidence. Lens type and shade should always be selected to suit the specific application.

## Blue Light Filtering Lenses

If you work in the sun, in front of digital screens or under fluorescent and LED lighting, you could be at risk of eye strain and damaging your retinas – the most vulnerable tissue of the eye. These working conditions can also accelerate the development of Age-related Macular Degeneration (AMD), cataracts and sleeping disorders.

BluSelect light-filtering lenses help protect eyes from Ultraviolet (UV) and High Energy Visible (HEV) light. Using blue light filtering lenses can help improve memory and cognitive functions, regulate circadian rhythm, elevate moods and boosts alertness.

# Depisteo VT1 4K Edition

The **VT1® 4K device** is designed for occupational health services and preventive medicine professionals. Its combination of patented technologies combining optics, electronics and computing **measures visual acuity and detects the main visual disorders.**

- The 5' 4K screen offers unrivalled sharpness and image quality while offering maximum test flexibility and customization (brightness, distance, optotypes, etc.)
- Suitable for progressive lens wearers
- Patients switch from distance to near vision simply by lowering their gaze
- Sensitive detector & removable forehead support ensure optimal face positioning
- Full visual field analysis
- A patented motorized system tests horizontal, vertical, nasal and central fields (64 LEDs < 30°)
- On/Off switch
- Device can be switched off without unplugging
- Non-slip weighted base ensures device stability

## MORE SCOPE with VisioWin®

**Intuitive VisioWin® – simple and efficient software to perform your tests in just a few minutes.**

- Create test sequences by job category
- Apply scoring to facilitate reading results.
- Personalize instructions for operator and patient.
- With 1 click, send technical information to our technician for assistance.
- Support for interpreting results and creating sequences.

### VisioWin® features

- Compares tests
- Easy workstation setup by importing and exporting your settings in just 1 click
- GATEWAY: simplifies transmission of results with business software packages
- Visualization of tests seen by the patient during tests
- Random acuity tests to avoid memorization
